DETAILED ACTION

Allowable Subject Matter

Claims 1-4 and 6-30 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented, for example, in independent claims 1 and 16, which include the limitation that the flexible lens element or membrane has an edge portion which is clamped between two rings so as to pivot freely between the two rings as the lens element or membrane flexes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
